Subject: Microsoft Settlement

Honorable Attorney General

If I understand it properly, this settlement will provide Microsoft with an opportunity to continue, in my opinion, the excellence in two areas of concern to me.

First, the development, testing and support of the finest computer software, that I as a small business owner can use to increase my productivity.

Second, the contribution to my retirement fund with the excellent growth of Microsoft stock.

In my opinion, both of these opportunities areas have been significantly restricted with this legal action.

God bless you, your family and The USA.
